

We understand that efficient shipping and timely delivery are essential for your business. Here's what you need to know about our shipping process and logistics:

1. Shipping Methods and Lead Times:

- We offer small parcel and LTL freight methods to accommodate your needs.
- The estimated lead times for our standard ground shipping are typically five business days for domestic shipments.

2. Free Freight Policy:

- We are pleased to offer free freight on orders of 144 (150 in Canada) toilet seats or more. This allows you to maximize cost savings while maintaining inventory levels.
- Please keep in mind that the free freight policy applies specifically to orders of 144 (150 in Canada) toilet seats or more. The customer will prepay shipping costs for orders that do not meet this threshold.

3. Packaging and Labeling:

- Our toilet seats are carefully packaged to ensure safe transit and minimize the risk of damage during shipping. Each package is labeled with clear product information and barcodes for efficient tracking and inventory management.

4. Tracking and Delivery Confirmation:

- Once your order is shipped, we will provide you with a tracking number upon request, allowing you to monitor the progress of your shipment.
- In case of any delays or issues, our customer support team will be readily available to assist you.

Should you have any specific shipping requests or questions regarding logistics, please don't hesitate to contact our dedicated customer service team at 1-800-265-3666. We are committed to ensuring a smooth shipping experience for you and your customers.

Thank you for choosing Centoco. We look forward to serving you and fulfilling your wholesale toilet seat needs efficiently and reliably.
